2. I am to point out that the object of the Resolution is that the Committee appointed thereby would submit to the Government of Bengal a carefully worked out scheme for decentralization. This scheme will receive the careful consideration of the Government of Bengal, and will have to be submitted to the Government of India for sanction. Before any action is taken to give effect either to that scheme or to any modification of it, it will be published for general criticism and suggestion.

RESOLUTION ON THE HOWRAH BRIDGE BUDGET ESTIMATE FOR THE YEAR 1905-1906

No. 741Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 25th April 1905.

RESOLUTION.

Howrah Bridge Budget Estimate for the year 1905-06.

READ—

Letter No. 8263 of 30th March 1905, from the Vice-Chairman of the Commissioners of the Port of Calcutta, forwarding the Budget Estimate of the Howrah Bridge for the year 1905-06.

RECEIPTS.

The total receipts for the year 1905-06 have been estimated at Rs. 1,88,594 as against Rs. 1,64,125 of the previous year, showing an increase of Rs. 24,469.

The increase in income is principally in the item of receipts from Railway traffic which has been fixed at Rs. 1,70,000 as against Rs. 1,47,500 in the estimate for 1904-05, and an appropriation of Rs. 2,000 from the Port Trust Revenues to the Bridge for the use of the steamer *Helvetia*, as this vessel is often employed for Port Trust purposes.

EXPENDITURE.

2. The expenditure has been estimated at Rs. 1,87,409 against Rs. 1,72,625 for 1904-05. The increase is chiefly under the heads "Maintenance and Repairs" and "Stores." Under "Maintenance and Repairs" there is an increase of Rs. 13,000, of which Rs. 9,800 is in respect of the upkeep of the Bridge proper and Rs. 2,000 for the ferry steamers, this item having been underestimated last year when provision for repairs to the vessels was made for the first time. The increase under the head "Stores" is in respect of three items and being small does not call for any special remarks.

3. As the net result, there is an estimated surplus of Rs. 1,185 against a deficit of Rs. 8,500 in the preceding year.

4. The Lieutenant-Governor sanctions the estimate under section 21 of Act IX (B.C.) of 1871.

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,

Secretary.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

▲, dew; o, overcast; d, drizzling rain; t, thunder; <, lightning; p, passing temporary showers.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

"Book-keeping," by double and single entry, by W. Inglis (Chambers' Educational Course).

1. The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College, or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burma only. The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements, in regard to the *place* and *hour* of examination, with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government.

2. The candidate should apply to an Examiner of Public Works Accounts, not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior, under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or of birth) not required, if the candidate is already in permanent Government employ.

(3) Certificate that the application is in the candidate's handwriting.

NOTE.—A candidate already in Government service should, in like manner, submit his application, through his immediate official superior, to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal, for registration, the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts, in the province or railway under whom they may desire to be employed.

7. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

8. The Civil Engineering College acts solely as an examination body in reference to admission to the fourth grade of Accountants, Public Works Department.

9. Candidates for the fourth grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination, at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant-General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College, not later than 30 days previous to the examination; the application to be accompanied by the fee of Rs. 10.

It should be carefully explained to each employé that unless he does so, there may be a difficulty hereafter in verifying his service when his claim to pension shall come to be investigated and considered. Service-books shall be introduced and kept up, whether rules for the grant of pensions and gratuities have been framed or not.

At the time of preparing the pay-bill for March in each year, a detailed statement of the permanent pensionable establishment existing on the 1st April should be prepared in Form XXIIIA and transmitted to the Accountant-General direct not later than the 15th April. (*d*) If the acting incumbent holds a permanent appointment upon another establishment, the fact should be stated.

(*e*) A detailed statement in Form XXIIIB should be given at foot of the original return, Form XXIIIA showing new names of officers which are not found in the return of the previous year, and when these new names include those of persons who have entered the service of the District Board for the first time, the particulars of their previous service and the rules or orders under which their service qualifies for pension should be given. Columns are also provided in Form XXIIIB for information required in regard to the names of officers which appeared in Form XXIIIA of the previous year, but are now omitted, as also regarding officers who have been on leave, other than privilege leave, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension.

(*f*) If any person on the establishment is a Government pensioner, or is not the servant of the District Board solely, the fact should be noted in the statement. If he be an officer transferred from the pensionable service of Government, for whose pension contribution is paid, a note should be entered against his name to the effect "Contribution paid to Government for pension."

RESOLUTION ON THE ADMINISTRATION REPORT OF THE JAIL DEPARTMENT FOR THE YEAR 1904.

No. 860J.—D.

JAILS.

Dated Darjeeling, the 3rd May, 1905.

RESOLUTION.

READ—

The Report on the Administration of the Jail Department for the year 1904.

Read also—

Reports for the years 1902 and 1903 and the Resolutions of Government recorded thereon.

The report under review has been submitted by Major W. J. Buchanan, I.M.S., who, on return from furlough on the 21st March, 1904, resumed charge from Major R. C. Macnamara, I.M.S., and continued in control of the Department throughout the remainder of the year.

2. The total number of persons in prison during the year was 116,988,

with 2,025 for the previous year. Of civil prisoners 668 were admitted, as against 689 in 1903, and there were no fresh admissions of State prisoners.

3. The most striking feature brought out by the report is that the death-rate, calculated on the daily average convict population, was 20·2 *per mille*, the lowest on record; and this is all the more satisfactory when it is demonstrated that the figure cannot be attributed to merely exceptional circumstances, but indicates the continuance of the steady improvement which has taken place in this respect during the last thirty years. The statistics compiled by the Inspector-General show that the rate recorded for the years 1875—1879, taken together, was 65·8, that it has fallen gradually during each subsequent quinquennium, and that it stands at 27·2 for the latest quinquennial period, during the last three years of which it has been returned at 25·6, 23·6 and 20·2, respectively. The decline under the different heads of disease is also apparent, and it is interesting to observe that the mortality from malarial fever, for example, was only 1·2 *per mille* in 1904, as compared with 5·1 during the years 1875—1879. As regards individual jails, the rate exceeded 40 *per mille* in the case of Balasore alone; and the Lieutenant-Governor regrets to learn that the high figure (79·7) here returned must be attributed to culpable neglect on the part of the Superintendent, an officer of the Subordinate Medical Service, who has lately retired. Every attention appears, as a rule, to be paid to sanitation, and in particular much has been done to improve the water-supply. It is noticed with satisfication that, in spite of plague having been epidemic in the neighbourhood of many jails, only one was actually attacked. That was the prison at Chapra, which is said to be very badly situated in the heart of the town. Since the appearance of the epidemic in Bengal, indeed, only 50 cases have occurred in prison, and only 7 jails and 2 subsidiary jails have been attacked.

4. The Inspector-General's recommendations on the subject of diet were received and accepted in the course of the year; and a number of important changes have now been introduced. The most important of these consist in the allowance of a ration of fish in all prisons in Bengal, where fish is the staple food of the population; an increase in the provision of oil and salt; and the extension to Superintendents of a wider discretion in the matter of altering the diet in accordance with local requirements, and providing special diets in the case of jails largely peopled by prisoners drawn from the aboriginal tribes.

5. The figures furnished show a reduction in the prison accommodation available; but it is explained that this is really due to the fact that workshops, verandahs, and so forth have—very properly—been excluded, and that the calculations formerly made have been carefully revised and, where necessary, corrected. Notwithstanding the transfer of prisoners from crowded jails to others with room to spare, there appears to have been overcrowding in 21 prisons; and it is admitted that in the case of 16 the accommodation in the under-trial wards was insufficient for the average daily requirements. These defects are, however, engaging attention; and it may here be noted that the amount expended on jail buildings during the year was Rs. 7,52,245 (Rs. 6,86,346 on original works and the balance on repairs), a sum more than double that spent in 1903. Cell accommodation for prisoners separately confined, whether by order of a Court or by way of prison discipline, is evidently insufficient and compares very unfavourably with that provided in other Provinces; but plans and estimates for extra cells have been prepared, and the necessary additions will, it is hoped, be made without delay. The Lieutenant-Governor visited many of the central and district prisons with the Inspector-General, who has carried out numerous important improvements during the year.

6. There were somewhat fewer punishments inflicted upon warders in the course of the year, and the number of resignations fell from 121 to 85; but there is apparently still considerable dissatisfaction among the staff, and the Inspector-General's proposals for the improvement in respect of their pay, pension and leave rules are awaited by the Local Government. There were only 6 escapes of prisoners during the year, and in each instance the officers responsible were prosecuted and punished.

7. The total number of offences committed by convicts fell from 31,828 to 30,928, and the percentage of punishments to the average number of convicts from 182·92 to 172·66. Fetters were imposed in 5,147 cases (that is to say in 248 for safe custody and in 4,899 as a punishment), the corresponding figures for 1903 being 4,966, 178, and 4,788, respectively. Although the Lieutenant-Governor is assured that it is generally recognised that corporal punishments are a last resort and should be inflicted but sparingly and with discretion, it is a matter for regret that the number of these rose from 176 to 203. The Inspector-General has directed his attention to, and offered some interesting remarks upon, a question which has recently been raised by the Government of India as to the comparative conduct of first offenders and habituals; and his conclusion so far is that the latter more frequently render themselves liable to punishment. Complete information, however, has not yet been collected, and a fuller discussion is promised in next year's report.

8. The working of the mark system has been specially noticed in each of the resolutions recorded since 1900, and it has been generally admitted that the present system is too complicated to appeal readily to the intelligence of the convicts concerned, while it imposes a vast amount of clerical labour on the prison staff. A scheme, which proposes to substitute remission in days, has been submitted by the Inspector-General and is now under the consideration of the Government of India.

9. Under the head of Labour and Cash Earnings the Inspector-General has shown a cash profit of Rs. 4,59,319, as compared with Rs. 4,69,859 in 1903. The net earnings per convict in central jails ranged from Rs. 143-14 in the Presidency Jail to Rs. 12-13 at Rampur Boalia. In this connection it is pointed out that the figures given under the head of "Employed on manufactures" do not include the whole of the industrial labour in jails, as in every case a number of prisoners are employed upon petty works for the general department, which are not taken credit for, such as rope-making and the fastening of neck rings and fetters, as also on jail buildings and the preparation of food by paddy-husking and wheat-grinding.

10. There appears to have been more regularity in the inspection of subsidiary jails, but the Superintendents of those at Khurda, Ranaghat and Fenny will be called upon to explain why their visits fell appreciably short of the prescribed number.

11. The Inspector-General has confined his remarks regarding the detention of under-trial prisoners to detentions in subsidiary jails, and has reported that in these the average period fell from 15·37 to 14·64 days. This is so far satisfactory; but the matter is of considerable importance and should in future be dealt with comprehensively. It appears, however, from the statistics furnished that the average throughout the Province was 17·46 days, as against 17·84 in 1903.

12. The names of the officers specially commended by the Inspector-General have been noted; and the Lieutenant-Governor desires to congratulate Major Buchanan upon his successful administration of the Department during the past year. That officer deserves the thanks of Government for his zeal and energy and for the good results secured.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Prisons for information and guidance.

Ordered also that a copy this Resolution and a copy of the Report be submitted to the Government of India in the Home Department.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

H. W. C. CARNDUFF,

Offg. Secy. to the Govt. of Bengal.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

△, dew; o, overcast; d, drizzling rain; t, thunder; <, lightning; p, passing temporary showers; /, strong wind; K, thunderstorm; g, gloomy.

Surveying Vessel *Rifleman*, when engaged in the survey of these waters, passed close to, if not over, the reported position without observing any indication of shoal water, and since then the Master of the British ship *William Le Lacheur* reports having obtained a sounding of 25 fathoms, sand, in the reputed place of the shoal, but saw no signs of any danger; there was, however, an accumulation of sea-weed and fish spawn, which the Master of the *Gesine Bronsbank* probably mistook for a shoal. It is considered, therefore, that this shoal does not exist, and it has consequently been expunged from the Charts.

BIHAR SCHOOL OF ENGINEERING.

Prospectus for Admission.

THIS School is under the management of the Principal of the Patna College, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Royal Highness the Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The School was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted to the first-year class of each year will be limited to 60, of whom only 15 can be other than Biharis by race (viz., natives of the United Provinces, Central Provinces or Bengalis); but should the number of suitable applicants who are Biharis by race be insufficient to fill up the 45 vacancies, then the vacancies thus occurring can be given to those applicants who are natives of the United Provinces, Central Provinces, or Bengalis domiciled in Bihar or non-domiciled Bengalis.

As far as accommodation is available, students who have passed the final *B* class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference, again, being given to Biharis and domiciled Bengalis.

3. The School, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers and Overseers.

The curriculum includes—

(1) A sound study of Elementary Mathematics.
(2) Careful training in Survey work.
(3) Drawing, both Free-hand and Engineering.
(4) Elements of road-making and the construction of simple buildings.
(5) Workshop practice, with hand tools and with machinery.

Students are prepared for the Overseer certificate of the Public Works Department. The necessary additional buildings have now been completed; and Government has agreed to reserve one appointment annually for a qualified student from this School, who must be a Bihari by race.

4. The next session will commence on 3rd July 1905.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Shibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. All scholarship-holders, however, receive free tuition. Government scholarships of the value of Rs. 7 a month, tenable for one year, are awarded each year on the results of the annual examinations, *eight* being tenable in the second-year class, *six* in the third-year class, and *six* in the fourth-year class. Of the scholarships attached to the School, 75 per cent. of them are to be reserved for those students who are Biharis by race. The teaching is in English.

6. Candidates for admission to the Overseer Department must be under 20 years of age, and must have passed one of the tests mentioned below :—

(1) The Entrance examination of an Indian University in English and Mathematics.
(2) Standard VII of the Code of European Schools.
(3) Students who have not passed either of these tests, and who are otherwise eligible, will have to pass an examination in English and Mathematics (of about the same standard as the Entrance examination of the Calcutta University in these subjects) to be held by the Principal of the Patna College on the 5th and 6th July, respectively (from 6 A.M. to 9 A.M. each day).

7. Candidates for admission must apply to the Principal not later than the 30th June. Their application must give the following particulars:—

(a) Name, address, and occupation of father or guardian.
(b) Race and religion, and *evidence to show that he is either a Bihari or a native of the United Provinces or Central Provinces or a domiciled Bengali or a non-domiciled Bengali.*
(c) A certificate of good moral character.
(d) An attested certificate of age (showing that he is under 20 years of age).
(e) A medical certificate showing him to be fit for employment in the public service.
(f) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certifiate showing that the candidate has passed the third test is given to the Principal.

8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re. 1. An Amin student is taught Elementary Surveying with a corresponding amount of Mathematics and of Geometrical Drawing. He will not be admitted to the Workshop. A student in the first-year class of the Overseer Department who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of Elementary Surveying and the other subjects taught in the Amin class may, at his option, leave the School with an Amin certificate.

Candidates for Amin class who have not passed the Middle English or Middle Vernacular examination will be examined at the School on the 7th July; candidates failing at this examination will not be admitted.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences from 3rd July 1905, unless application for admission is made before 30th June 1905.

10. Every candidate for admission to the School must bring a certificate of good character from the Head of the institution from which he has come.

The examination will be conducted either at the College, or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burma only. The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements, in regard to the *place* and *hour* of examination, with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government.

2. The candidate should apply to an Examiner of Public Works Accounts, not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior, under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or of birth) not required, if the candidate is already in permanent Government employ.

(3) Certificate that the application is in the candidate's handwriting.

NOTE.—A candidate already in Government service should, in like manner, submit his application, through his immediate official superior, to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal, for registration, the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts, in the province or railway under whom they may desire to be employed.

7. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

8. The Civil Engineering College acts solely as an examination body in reference to admission to the fourth grade of Accountants, Public Works Department.

9. Candidates for the fourth grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination, at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant-General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College, not later than 30 days previous to the examination; the application to be accompanied by the fee of Rs. 10.

Minden and Grommet Rocks—Buoys marking, at the entrance, withdrawn.

No. 154 (first publication).—The Bombay Government has given Notice (No. 37 of 1905) that the two buoys marking Minden and Grommet Rocks at the entrance of Trincomali Harbour have been withdrawn and will not be replaced.

This Notice affects the following Admiralty Charts:—Trincomali Harbour, No. 816, Trincomali Harbour and Bays No. 815: Also, Bay of Bengal Pilot, 1901, page 113."

ARABIA, NORTH-EAST COAST—Persian gulf.

Bushire—Regarding certain buoys and beacons in the inner anchorage.

No. 155 (first publication).—With reference to Notice to Mariners No. 428, dated 16th December 1904, issued by this office, the Bombay Government has given further notice (No. 38 of 1905) that the black spar buoy therein mentioned from which single tree bore N. 64° 20′ E. and the red spar buoy from which single tree bore N. 73° E. have both disappeared.

All the remainder of the spar buoys except that from which the single tree bears N. 76° 28′ E. have lost their tops, and are now only plain spars very difficult to pick up.

The red iron pile beacon is leaning considerably to one side, and is liable to be washed away, as also are all the spar buoys.

This Notice affects the following Admiralty Chart:—Abu Shahr or Bushire No. 27, and Sailing Directions, Persian Gulf Pilot, Fourth edition, 1898, page 270.

ARABIA, NORTH COAST—Persian gulf.

Shatt-al-Arab—Alterations and corrections in the position of buoys at the entrance.

No. 156 (first publication).—In continuation of Notice to Mariners No. 124, dated 20th April 1905, the Bombay Government has given notice (No. 39 of 1905) that the three inner buoys at the entrance to the Shatt-al-Arab river have been moved from the positions in which they were found by R. I. M. S. 'Investigator' as follows:—

No. 1 Buoy	N. 65° E.	5¾	cables to Western edge of deep water channel.
No. 2 „	N. 71° E.	7½	„ „ „ „ „ „ „
Bar Buoy	N. 85° E.	11¼	„ „ „ „ „ „ „

The positions of all the buoys shown on Admiralty Chart No. 1235 'Mouths of the Euphrates' were found to be incorrect, they now lie in the following positions and depths of water at low water spring tides:—

Outer buoy ...	in 16 feet bearing	S. 52° E.	dist. 15·2	miles	from Fao Light.
R. W. V. S. buoy known locally as Lawrence buoy ...	in 11 ,,	S. 53° E.	,, 11·5	,,	,, ,, ,,
No. 1 buoy ...	in 10 ,,	S. 60° E.	,, 9·35	,,	,, ,, ,,
No. 2 ,, ...	in 9 ,,	S. 65° E.	,, 7 7	,,	,, ,, ,,
Bar ,, ...	in 10 ,,	S. 68° E	,, 6·3	,,	,, ,, ,,

There is a depth of 10 feet immediately outside No. 2 buoy. In addition to the above there are three small red spar buoys which mark the eastern side of the channel, but they are very difficult to pick up, they lie in the following positions:—

Outer spar buoy	A in 10 feet	S. 81° E.	dist. 8 cables	from new position of No. 2 buoy.
Middle ,,	B in 11 ,,	N. 8° E.	,, 5 ,,	,, ,, ,, ,, ,,
Inner ,,	C in 11 ,,	N. 26° W.	,, 7½ ,,	,, ,, ,, of Bar buoy.

Directions for entering the Shatt-al-Arab river.—Pass a convenient distance westward of the outer buoy and steer N. 60° W. until Lawrence buoy bears N.-N.-W. when shape course to pass close to the westward of it (remembering a depth of 7 feet exists 3 cables from the buoy), when abreast of Lawrence buoy steer to pass one cable eastward of No 1, No 2 and the Bar buoys, on reaching the latter shape course for Fao light, situated at the telegraph station easily recognized on account of the size of the buildings, which are the largest on the Turkish side of the river.

The above directions if followed will carry 9 feet least water up to the Lawrence buoy, after that is passed the general depth to the gut off No. 1 is 9 feet, but there are several small lumps of 7 feet, all of which it is impossible to avoid. Abreast of No. 1 the depth is from 17 to 18 feet in mid-channel, the water shoals very rapidly towards the spar buoys where the bottom is fairly hard, but gradually towards the iron buoys where the bottom is very soft. Between No. 2 and the bar buoy there is a small bar of 12 feet, after which good water will be carried up to the deep water off Fao.

All bearings are true.

Approximate position, lat. 29° 50′ N., long. 48° 30′ E.

This Notice affects the following Admiralty Chart:—Mouth of the Euphrates No. 1235, also Persian Gulf Pilot, fourth edition, 1898, page 286."

No. 148 (second publication).—The British Admiralty has given notice (No. 290 of 1905) that the Commander of H.M.N. Surveying Vessel *Van Doorn* has made a close but unsuccessful search for the Gesine Bronsbank shoal.

This shoal was reported to have been seen by the German ship *Gesine Bronsbank* in 1879, but apparently no soundings were taken. Some years previously to this H.M. Surveying Vessel *Rifleman*, when engaged in the survey of these waters, passed close to, if not over, the reported position without observing any indication of shoal water, and since then the Master of the British ship *William Le Lacheur* reports having obtained a sounding of 25 fathoms, sand, in the reputed place of the shoal, but saw no signs of any danger; there was, however, an accumulation of sea-weed and fish spawn, which the Master of the *Gesine Bronsbank* probably mistook for a shoal. It is considered, therefore, that this shoal does not exist, and has consequently been expunged from the Charts.

River Dues leviable under section 108 of the Calcutta Port Act	14,75,000	14,75,000
ESTIMATED SURPLUS		52,370

2. The estimated receipts, based on the existing schedules of rates and charges, and including the river dues, amounted to Rs. 86,45,395: the expenditure was estimated at Rs. 82,38,125. This would leave a surplus of Rs. 4,07,270. But following the principle which has been adopted by the Commissioners during the last three years that the river due on goods should continue to be levied at the rate of 4 annas per ton, and that the charges for the use of the jetties and other similar charges should be reduced, the Port Commissioners have resolved to make further reductions in these charges to the extent of Rs. 3,54,900, thus reducing the estimate of income to Rs. 82,90,495 The reductions estimated are as follows :—

	Rs
Charges for overtime and night work at the Docks	1,03,000
Mooring charges on vessels lying in the Port outside the Docks	50,000
Charges on passengers' baggage shipped at the Docks	1,500
Charges on wheat and seeds	51,650
Charges on coal	1,25,000
Rate on tea	16,750
Rates on imports of machinery	7,000
Total	3,54,900

3. On account of the reduction in rates already made in previous years, the Commissioners' estimate of income has been reduced by Rs 5,24,000 a year. This, added to the further reduction in rates now proposed, entails a total reduction, in the income of the Commissioners, of Rs. 8,78,900 a year. The Commissioners are to be congratulated on being able to make such large concessions, and at the same time to manage the affairs of the Trust in a satisfactory manner.

4. Excluding the provision made for interest and sinking fund charges, the expenditure on the whole amounts to Rs. 54,51,361, as compared with Rs. 51,09,497, provided in the estimates of the last year. An abstract comparing the estimates of the two years is given below:—

	Estimate, 1905-06.	Estimate, 1904-05.
	Rs.	Rs.
Establishment	21,66,486	20,80,689
Stores ...	3,59,827	3,71,575
Maintenance and Repairs	8,26,042	7,08,045
Labour ...	[illegible]	12,49,930
Miscellaneous	[illegible]534	6,63,061
Police ...	63,121	61,217
Unforeseen Expenditure	20,000	20,000
Luff Point Commission		
	[illegible]	51,54,517
Deduct chargeable to Capital Account	46,629	45,020
Total ...	54,51,361	51,09,497

5. The chief items of increase are under "Establishment," "Maintenance and Repairs" and "Labour" and amount to Rs. 85,797, Rs. 1,17,997 and Rs. 1,54,550 respectively. The increase under "Establishment" is mostly due to increases in the pay and allowances of the subordinate staff employed. The increase under "Labour" is due to necessary provision having been made to meet the increased traffic expected.

CAPITAL.

6. The capital budget provides for an expenditure of Rs. 47,89,120 on new works, and of Rs. 1,07,000 on a self-contained gas light vessel and a new survey steam-cutter, making a total of Rs 48,96,120. To obtain the funds necessary for meeting the present and future expenditure to be charged to the Capital account, the Commissioners propose to raise a debenture loan of Rs. 83,87,044.

7. In pursuance of the powers vested in him by section 71 of the Calcutta Port Act, 1890, the Lieutenant-Governor approves of the estimate of the income and expenditure of the Commissioners for the year 1905-06.

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,

Secretary to the Government of Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF APRIL 1905.

THE abnormal features of the whole north-east monsoon have been well maintained up to the end of the period. The most striking elements have been the exceptionally low temperatures maintained throughout April, and the plentiful rainfall. The temperature phenomena may be described as a succession of cold-waves from the Himalayas. The low temperatures were naturally accompanied by abnormally high pressure over the land.

The shallow residual depression over Burma followed by an area of high pressure over Bengal gave a continuance of the fine weather of the last days of March for the first six days of April with westerly winds and a quite extraordinary dryness. While pressure remained especially high towards the north-east of the Province the approach of a slight depression from the west on the 7th and 8th caused an indraught of warm moist air from the Bay giving rain first in the south-west and then in the east and north of Bengal and Assam on the 10th and 11th. A repetition of the same sequence of phenomena including general and abundant rain occurred on the 13th, 14th and 15th. The rain was accompanied by low day and night temperatures.

The same broad features of pressure distribution, viz., low barometers to the west over Central India and high pressure in the north-east corner were repeated and maintained for the latter half of the month. An indraught from the Bay was followed by precipitation more or less scattered up to the 21st, and then becoming very general and everywhere heavy up to the 28th. The depression of the temperature fully kept pace with the rainfall, amounting to a very general defect of about 12° and of as much as 17° below the normal in Bihar on the 28th. On many of these days the weather was essentially disturbed by atmospheric instabilities giving rise to frequent nor-westers, accompanied by their usual displays of lightning and thunder. A little rain in the south and east of the province on the 29th gave way to general fine weather accompanied by east winds and continued coolness on the 30th.

Pressure was in slight deficiency at the end of March and on the 1st of April, after which it rose rapidly and remained well above the average until the 18th when it remained practically normal for three days, and again rose rapidly and continued well above the normal to the end of the month. The average of the month was between a tenth and a twentieth of an inch above the mean average for all stations except Darjeeling whose mean was normal. The vertical pressure anomaly between Darjeeling and Calcutta has therefore been negative, indicating that the pressure of the middle and upper strata of the atmosphere was unduly small relative to that of the lower strata.

Temperature has remained consistently below the normal except on the 20th when it just touched its usual value. For the first six days of the month the deficiency was continuously more than 10° over all the western part of the Province, as much as 14 on the 3rd and only slightly less than that towards the east. From the 7th to the 17th the deficiency was about 5°, from 1[illegible]th to 21st rather less; from the 22nd to the 26th again 4°; and for the last four days of the month still further below the normal. The highest day temperature recorded was 107·°6 at Bankura and the coldest night in the plains was 47·°7 at Motihari. Darjeeling never warmed up to 65° and fell as low as 34° at night with an average 4·°2 below normal.

Rainfall was in excess in every division of the province, and more than double as much as usual in South-Western Bengal. During the first eleven days there were only a few local showers in Bengal and Orissa, with the exception of general rain in East Bengal on the 9th. On the 12th and 13th there was very general rain all over Bengal, Orissa and Chota Nagpur, Bihar, and the extreme north of Bengal only escaping with a few showers. On the next two days rain was restricted to Bengal proper, and continued to diminish everywhere until the 20th and 21st when showers increased again in North and East Bengal, and the increase spread to a maximum extent on the 20th and diminished slightly for the rest of the month, the 30th being dry practically all over the province.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the month of April 1905:—

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

NOTIFICATION.

No. 846T.R., dated 22nd May 1905.—The following rules of the Postal Department relating to rent money-orders are published for general information:—

R. W. CARLYLE,
Offg. Chief Secy. to the Govt. of Bengal.

RULES RELATING TO RENT MONEY-ORDERS.

PART I.

The form of rent money-order.

1. The rent money-order form is divided into three parts, viz:—

(*a*) The money-order.
(*b*) The acknowledgement. (This is the tenant's receipt.)
(*c*) The coupon. (This is the counterfoil of landlord's portion of the receipt.)

2. Part (*a*) requires no description, as it is exactly like the corresponding portion of the ordinary inland money-order form. Part (*b*) is much larger than the acknowledgement of an ordinary money-order form. On one side of this part are printed headings to provide for the entry of full particulars of the remittance, and on the other side are spaces for the name and address of the remitter. Part (*c*) is the same size as the acknowledgement, and contains the same headings as part (*d*). On the back of part (*c*) are special instructions relating to rent money-orders.

3. This form is to be used for rent money-orders only and for no other purpose.

4. Forms of rent money-order should be freely distributed among the rent-paying classes, and every facility should be given to tenants to obtain these forms.

5. Every postmaster, sub-postmaster and branch postmaster will be personally responsible that a sufficient supply of rent money-order forms is always available in his office. In case of emergency, supplies may be obtained by telegraph direct from the stock depôt. Divisional Superintendents and Inspectors, when visiting offices, will see that a sufficient supply of rent money-order forms is available, and mention the fact in their inspection reports.

PART II.

Issue of rent money-orders.

6. Rent money-orders are issued from all head, sub and branch post-offices under the rules which govern the issue of ordinary inland money-orders, provided they are prepared in the prescribed form and are payable in districts in the lower provinces of Bengal in which the Bengal Tenancy Act is in force*or any other districts to which the Local Government may, from time to time, extend the provisions of the said Act. The following rules contain additional instructions which relate specially to the issue of rent money-orders.

Rangpur.	Champaran.	Shahabad.
Bogra.	Darbhanga	Tippera.
Pabna.	Gaya.	Chittagong.
24 Parganas	Malda.	

NOTE.—Rent due on Government land may be remitted by rent money order.

7. The rule prohibiting the inclusion of pies (fractions of an anna in the amount of an ordinary money-order does not apply to rent money-orders, which may contain any fraction of an anna not less than one pie.

NOTE.—The sub items which go to make up the *total* of the rent money order may contain fractions of a pie

8. There must be a separate money-order for each tenure or holding. Rent for two tenures or holdings may not be sent by one money-order.

9. The office of issue, when requested to do so, will help the remitter to make the requisite entries, and, if necessary, will make entries for him in the form of rent money-order; but no fee or any gratification for this service may be demanded or accepted, either directly or indirectly, by any official of the Postal Department.

10. Persons remitting money by rent money-orders should be informed that unless they have received special instructions from the landlord on the subject, they should make the orders payable to the landlord, or to his agent, or to the manager (if one has been appointed), according as the rent has previously been paid to the landlord, or to his agent, or to a manager. The name of the payee must in each case be entered on the money-order. In the absence of special instructions from the landlord, a rent money-order should always be made payable at the place at which the tenant has previously paid rent. If the rent has previously been collected in the tenant's village by an agent whose office is not in the village, the money-order should be made payable at the agent's permanent office, or at such other place as the landlord may appoint.

11. The office of issue is responsible that no rent money-order is issued of which the coupon and acknowledgement are blank, or are not completely filled up. The post-office has no means of ascertaining the correctness of the information supplied by the remitter; all that is necessary is that the postmaster or money-order clerk should see that entries are made against every heading in the coupon and acknowledgement. No rent money-order may be acepted for issue in which there is any erasure or correction in the name or month or year of the kist for which a remittance is made. If the remitter wishes to make any alteration, or tenders a money-order in which there is any alteration or erasure in the entry of the name or month or year of the kist, he must be instructed to fill up a fresh money order. When a rent money-order with deficient entries on the coupon, or no entry at all is presented for issue, the issuing postmaster should point out the omissions and help the remitter to the best of his power to supply them.

12. The office of issue must also see that no entry is made by the remitter beyond the entries provided for in the form of rent money-order. In some cases the tenant enters the annual rent or the area or the nature of his holding. Such entries are not provided for in the form, and were intentionally not provided for and should not be allowed. If a remitter tenders a rent money-order containing any entry for which the form does not provide, the postmaster or money-order clerk should refuse to accept the form and should ask the remitter to fill up another form Under rule 9 the postmaster or money-order clerk will, if requested to do so, help the remitter to fill up a fresh form correctly.

13. The word "rent" should be written before the number of every rent money-order, and this mode of distinguishing rent money-orders should be adopted whenever the number is entered. The number assigned to a rent money-order by the head office or sub-office of issue will also be entered at the top of the acknowledgement and coupon by the money-order clerk of the head office or the sub-postmaster of the sub-office of issue, as the case may be.

14. One line of the return of rent money-orders issued (Form 2—Rent) should be filled in by every head and sub-office at the close of each day. On the 1st of the following month the return should be totalled and sent to the head-postmaster. The head-postmaster will compile a general return (Form 3—Rent) and submit it to the Postmaster-General not later than the 10th of the month following that to which it relates. Branch offices will not submit any returns, as rent money-orders issued from such offices will be included in the returns of their account offices.

PART III.

Payment of rent money-orders.

15. Before a rent money-order is made over to the postman for payment, the money-order clerk or postmaster of the office of payment will carefully examine the name or month and the year of the kist entered in the coupon and acknowledgement, and satisfy himself they have been clearly entered and bear no marks of erasure or correction.

16. If the examination prescribed in rule 15 shows any discrepancy or alteration in the entries of the kists in the coupon and the acknowledgement, the money-order must not be paid to the payee, but should be returned to the office of issue for repayment to the remitter with the following certificate endorsed in red ink by the postmaster of the office of payment across the acknowledgement :—" Entry of kist defective ; returned for payment to remitter—(*signature*) postmaster." The office of payment will at the same time note the error in the error book, and send a copy of the entry to the Superintendent in whose jurisdiction the office of issue is situated, in order that the official in fault may be punished.

17. On receipt of the copy of the entry in the error book, the Superintendent will take such action as appears to him suitable, having regard to the special instructions to offices of issue in rule II of these rules.

18. A rent money-order should always be paid at the landlord's office at the place of payment entered in the money-order. If the money-order is drawn out as payable to the landlord himself, payment may be made to him or to any person authorized by him in writing to act as his agent, or to receive payment of money-orders in his favour. If the money-order is drawn out as payable to two or more joint landlords, the receipt and acknowledgement must be signed by both or all of the landlords, or by an agent authorized in writing by both or all of the landlords. If the money-order is drawn out as payable to an agent or manager, payment may only be made to the payee named and not to any one else. In making over money to postmen for payment of rent money-orders, the postmaster of the office of payment must observe the limit fixed for the amount to be entrusted at one time to a single postman or village postman. The date stamp of the office of payment should be impressed on the reverse of the acknowledgements just before the money-orders are given to the postmen for payment.

NOTE.—Rent money-orders in favour of a District Officer, Subdivisional Officer, Certificate Officer or other Gazetted officer of Government (excepting the Khas Tahsildars, Tahsildars and Managers who are Deputy or Sub Deputy Collectors), should be paid not in cash but by book transfer under the rules contained in Part II of the " Rules relating to money-orders in favour of Government or local bodies entitled to bank at treasuries or sub-treasuries."

19 In all other respects rent money-orders will be dealt with in the office of payment exactly like ordinary inland money-orders.

20. One line of the return of rent money-orders paid and refused (Form 4—Rent) should be filled in by every head and sub-office at the close of each day. On the 1st of the following month the return should be totalled and sent to the head-postmaster. The head-postmaster will compile a general return (Form 5—Rent) and submit it to the Postmaster-General not later than the 10th of the month following that to which it relates. Branch offices will not submit any returns. The rent money-orders paid by branch offices will be included in the returns of their account offices. All rent money-orders paid, whether paid to the original payees in cash or by book transfer or repaid to the remitters, are to be shown in these forms under " Rent money-orders paid."

PART IV.

Disposal of Rent Money-orders not accepted by the payee.

21. If a rent money-order is refused by the payee, the postmaster of the office of payment will certify in red ink across both the coupon and acknowledgement that the payee has declined

to receive payment. This certificate must always be recorded on refused rent money-orders whether the payee has or has not noted his refusal in writing, and the certificate will be signed by the postmaster. The postman who presented the order with the amount thereof to the payee will write his name and the date of presentation under the postmaster's signature. This certificate will be recorded in the form given below. The refused money-order will then be treated in the usual way and returned to the office of issue (with the coupon stitched to it) for repayment to the remitter. The coupon will be made over to the remitter (tenant) when the amount of the order is repaid to him. The acknowledgement will, when the office of payment is a head office, be retained in that office. In the case of any other office of payment, the acknowledgement for a refused money-order will be retained by that office until the 1st of the following month, when it will be attached to the return of rent money-orders paid and refused, and be forwarded to the head office. The acknowledgements relating to refused money-orders will be filed in monthly bundles in the head office and should be kept in the post-office safe. The postmaster will be responsible for their safe custody for three years from the last day of the agricultural year in which the money-orders were issued. On the expiry of the three years the acknowledgements should be destroyed.

PART V.

Disposal of Rent Money-order Acknowledgements.

N.B.—The rules in this part apply to all acknowledgements pertaining to rent money-orders whether paid in cash or by book transfer.

23 The acknowledgements appertaining to paid rent money-orders will, if they are to be delivered from the head office of payment, be made over to the postmen or village postmen at the next delivery and be dealt with as prescribed in rule 25. The acknowledgement portion of rent money-orders paid by sub and branch offices should not be cut off by the actual office of payment, but the paid money-orders should be forwarded with the acknowledgements attached to them to the head office of payment. It is not, therefore, necessary for sub and branch offices to keep the form 'Rent 6' (book of rent money-order acknowledgements returned). This form should be maintained only in head offices, and acknowledgements to be delivered from any office other than the head office of payment should be sent to it in rent-acknowledgement envelopes (Rent 8) duly entered in registered lists.

24. Head and sub-offices should keept he Form 'Rent 7' (book of rent money-order acknowledgements delivered). The acknowledgements of all rent money-orders to be delivered from a branch office should be sent by the head office of payment to the account office of the branch office. These acknowledgements should be detailed by the account office in the special book of rent money-order acknowledgements delivered (Form Rent 7), and be forwarded by the account office to the branch office entered on the reverse of the branch office daily account. The branch postmaster will note the numbers of the acknowledgements in the branch office journal, obtain the postman or village postman's signature against each entry, and then hand over the acknowledgements to the postman or village postman for delivery or deliver the acknowledgements himself in the case of offices in which the delivery work is performed by the branch postmaster.

25. The postman or village postman will enter the acknowledgements in detail in his book or register as the case may be, and will obtain the remitter's signature or mark therein when delivering each acknowledgement.

26 Acknowledgements appertaining to rent money-orders, the remitters of which have removed beyond the delivery range of the original office of issue, will be forwarded direct to the remitters at their new addresses (if known) enclosed in postal service registered covers.

27. Acknowledgements which cannot be delivered in consequence of the remitters not being found will be returned by the postman or village postman to the postmaster or money-order clerk (as the case may be), who will sign for them in the postman's book or village postman's register.

28. Undelivered acknowledgements will be kept in the office of issue (if a head office) for a period of six months, and, if still unclaimed, will be forwarded under a postal service registered cover to the Postmaster-General.

29. In sub and branch offices undelivered acknowledgements will be retained for a period of ten days, and, if still unclaimed, will be forwarded to the head office under a postal service registered cover. Such acknowledgements will be kept in the head office for a further period of six months, and, if still undelivered, will be forwarded under a postal service registered cover to the Postmaster-General.

30. A rent money-order acknowledgement received by the Postmaster-General under the provisions of the two preceding paragraphs will be kept by him for a period of three years from the last day of the agricultural year in which the money-order was issued and, if not claimed within that period, will be destroyed.

31. Postmasters, sub-postmasters and branch postmasters of offices of issue will be responsible that acknowledgements are delivered to remitters of rent money-orders without any unnecessary delay and *free of charge*. It will be useful to make enquiries as to the punctual and free delivery of acknowledgements from tenants who may call at post-offices to have rent money-orders issued.

32. Void rent money-orders are to be dealt with in accordance with rules 653, 654 and 655 of the Post-office Manual, volume I, 8th edition, and rules 505, 506 and 507 of the Post-office Manual, volume II, 6th edition.

V.—Each candidate must produce at the time of admission a certificate showing good moral character, and also a medical certificate of good and sound health from an Assistant Surgeon.

VI.—No student who fails to pass the final examination of a Survey School or does not bring a transfer certificate under the ordinary transfer rules will be permitted to join the second year class after the 31st July

VII.—The admission fee is rupee one and the monthly fee rupee one, but Government scholars receive free tuition.

VIII.—There are six Government scholarships, which are awarded each year to the best Uriya students and domiciled Bengalis permanently settled in Orissa only on the results of the annual examination of the first year class.

IX.—The course of study in the school extends over two years, and the students are required to attend at least 75 per cent. of the working days.*

X.—The successful students at the annual examination of the first year class are usually promoted to the second year class; but those who wish may, at their option, leave the school with an amin certificate from the Head-master of the school.
